

...lets you see, pick or file, exactly
the card you want—
instantly!

Magne/Dex[®]

**INSTANT
VISIBILITY,**

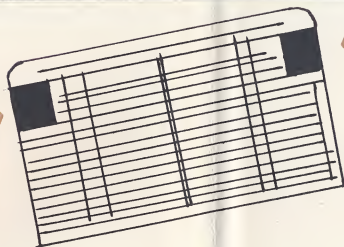

Switch now to this new, revolutionary
vertical filing system that uses magnetism
to provide instant visibility at the touch of a finger! Makes all other card
filing systems obsolete! Save time, cut costs with the
amazing card "that reveals itself"!

Here's how the MAGNE-DEX principle works!

MAGNE-DEX

**All Other Card
Filing Systems**

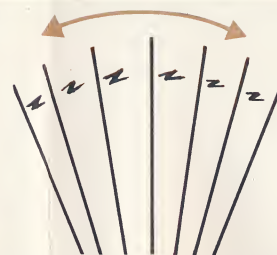

Replace your old-
fashioned system at once,
or if preferred, on a
gradual time schedule

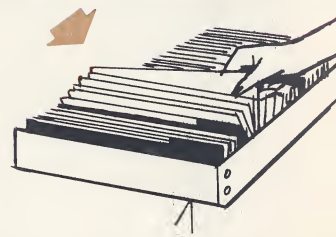

Each card has a wafer thin metal
laminated between two thicknesses
of stock. (metal is invisible)

Merely moving forward the index
card for any classification immediately
causes all cards behind it to fan
out, revealing up to 25 cards
in sequence.

Permanent magnets in the MAGNE-
DEX Visible Trays bring the repel-
ling magnetic effect to bear on the
filed cards.

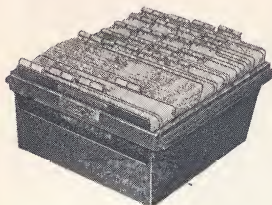

No fumbling, no searching — the
operator merely looks and lifts!
Fastest and easiest system ever de-
veloped and it's available only in
the MAGNE-DEX system!

Enjoy these 9 major Magne-Dex advantages

1. Instant Visibility—20 to 25 cards "reveal" themselves at the touch of a finger.
2. Speed—Up to 100% time saved over other systems. All information in direct line of vision.
3. Accuracy—Possibility of errors reduced to minimum. The right card always exposed and available.
4. Convenience—Use at normal desk height. No slanted surfaces for posting. Minimizes fatigue.
5. Flexibility—Remove, insert, change, rearrange, add cards at will.
6. No Special Training Required—Turns regular clerks into experts.
7. No Maintenance Required—Nothing to go wrong—nothing to replace.
8. Low in Cost—Initial cost, including trays, guides and special printing (if required) less than 1/2 the expense of other visible file systems.
9. Simple to Install—Adaptable to any existing or new vertical card filing system.

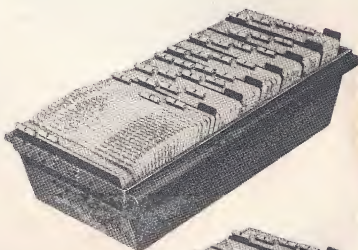

MagneDex VISIBLE TRAYS
